

CAPABILITY STATEMENT

ABOUT US

Ben Hagney Electrical (BHE) is an independent, wholly Australian owned, family-based company located in Bathurst in the Central West, New South Wales. We offer a range of services including electrical design, installation, and maintenance for residential, commercial, and industrial clients throughout the state. In addition, we provide a number of specialised services including solar, security, service locating, ASP level 2 metering, and non-destructive digging & excavation works.

At BHE, we value quality and safety, and pride ourselves on our ability to provide a range of services at a high standard using the safest possible measures. All work completed by BHE meets all the relevant workplace health and safety standards to ensure that we not only look after the safety and wellbeing of our employees but our clients as well. The Safety Management System utilised by BHE is certified to comply with AS4801:2001 by the NSW chapter of the National Electrical and Communications Association (NECA). We are covered by all required public liability and workers compensation insurances which are available to our clients on request.

BHE are dedicated to providing the highest standard of work and customer service, to deliver the best possible solution to fit our client's needs and budget. Through this commitment we have established constant and long-term relationships with our client base and continue to consistently meet their ongoing needs. BHE has extensive knowledge and experience in many sectors within residential, commercial, and industrial electrical works and we pride ourselves on our level of client satisfaction.

We consider BHE to be dynamic, flexible, resourceful, and innovative, with the expertise, capabilities, and experience to meet all work opportunities that come our way.
